March 2010

To Whom It May Concern,

The Fryeburg Business Association enthusiastically supports the extraordinary and ambitious mission of the White Mountain Aquatic Foundation and their plan to build an extensive aquatic center in the Mount Washington Valley area.

The presentation that was made to us was not only well thought out but it covered a wide variety of needs and opportunities for the greater good of the Mount Washington Valley area. A center such as this would benefit the educational sector as well as therapeutic health, physical wellness, competitive sportsmanship and recreational fun for all ages. Just as importantly, adding such a state of the art amenity to the area would stimulate the economic growth of the communities as it would be an attraction for many speciality groups such as olympic training camps for example.

A year round facility like an Aquatic Center would definitely enhance our area as a destination and add yet another asset to the quality of life that attracts and beacons others to relocate here.

The Fryeburg Business Association sees many values to a year round aquatic center in the area and support and encourage the efforts of the Foundation as they move forward.

Sincerely,

Donna
